

# CONCORDANCE OF STANDARD EDITIONS

Under *IG* the reference is to vol. II<sup>2</sup> except where otherwise stated, and where a text appears both in II<sup>2</sup> and in another volume we give the reference to II<sup>2</sup> only. Under 'other' we have been highly selective, and it should not be assumed, for instance, that where no reference to *SEG* is given no text has been published in *SEG*. With those exceptions, we have aimed at completeness for the editions which we cite.
